Appl. Number: 11/611,533  
Filed: 06/30/2003

#### REMARKS

##### Status of the Claims

Claims 1-33 are pending in the application.

Claims 1-33 have been subject to a restriction requirement.

By way of this amendment, claims 1, 11, 12, 25, 26, 29 and 30 have been amended, claims 21-24 and 33 have been canceled and new claims 34-39 have been added.

Upon entry of this amendment, claims 1-20, 25-32 and 34-39 will be pending.

##### Summary of the Amendment

The claims have been amended to more clearly define embodiments of the invention. Support for the amendments is found throughout the specification and claims as filed. No new matter has been added.

##### Restriction Requirement and Election of Species

Claims 1-33 have been subject to a restriction requirement wherein Applicants have been required to elect one invention from the following groups:

Group I, claims 3, 13, 22, 23, 26, 27, 30, and 31;

Group II, claims 4, 14, 24, 28, and 32; and

Group III, claim 33.

Applicants provisionally elect Group I, claims 3, 13, 22, 23, 26, 27, 30, and 31, with traverse. Applicants agree that the invention set forth in Group I is a separate and distinct invention from that set forth in Group II. However, the two inventions are so related, Applicants respectfully assert that examination of both groups in a single examination would not present an undue burden on the Patent Office. For the foregoing reason, Applicants respectfully request reconsideration and withdrawal of the restriction requirement as applied to Groups I and II.
